

**Race
Workbook** | FALL WINTER
2026 - 2027

ROSSIGNOL

RACE DEPARTMENT
PHILOSOPHY

Behind every victory, there is a ski built for excellence.

We are taking a major step forward: consolidating all our production into a single site to concentrate top-level expertise and skills. This project, which will span two years, is much more than an industrial change: it is a massive opportunity to strengthen our know-how and our capacity for innovation.

During the transition phase, part of our production will temporarily take place at our Spanish site, ensuring continuity and quality. Specifically, for the 2026/2027 season:

3 models will be produced in Moirans:

- HERO ATHLETES FIS GS FACTORY 193 R22
- HERO ATHLETES FIS GS FACTORY 188 R22
- HERO ATHLETES FIS SL FACTORY 165 R22

1 model will be produced in Artés:

- HERO ATHLETES FIS SL FACTORY

Starting from the 2027/2028 season, all race skis (FIS sizes) will be produced in the same workshop, delivering:

- Complete synergy between teams and processes.
- Optimized resources to aim for excellence.
- A unique workshop for World Cup, Europa Cup, and Factory skis.

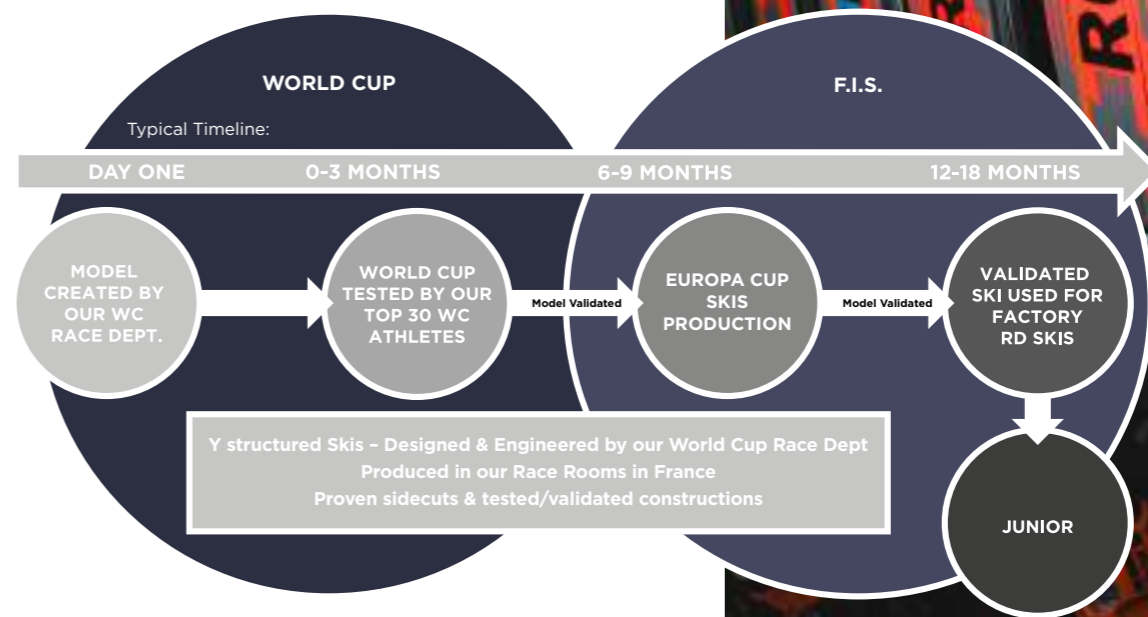

What are the benefits for athletes?

This consolidation into a single site is not just an industrial optimization: it is a major step forward for racers. By concentrating all production in a workshop dedicated to racing, we guarantee:

- **Perfect ski consistency:** same processes, same standards, for absolute performance reliability.
- **Increased responsiveness:** shorter lead times for adjustments and developments tailored to athletes' needs.
- **Enhanced expertise:** all skills and know-how combined to push innovation and precision to the highest level.
- **Closer to competition:** a workshop designed to meet the demands of World Cup and Europa Cup circuits.

This evolution is designed to provide athletes with skis that are even more reliable, high-performing, and adapted to the extreme conditions of competition.

Hero

For the love of race
We rise in the heart of darkness,
Tune, test, wax and repeat.
All in the name of team.

For the love of race
We pack cars
full of kids, gear and dreams
Navigate playlist and chairlifts

Every moment, every turn
Sparks the atmosphere
The vibe in the air.
The energy on course

Together, we rise.
Hearts racing.
Millions of moments,
Shaping milliseconds of movement.
This isn't just racing, it's a way of being

For the love of race.

R22 WC

The R22 plate has been developed with our World cup athletes.

- Boot soles : 264-352 mm
- Compatible bindings :
SPX 18, SPX 15, SPX 14, SPX 12 ROCKERACE
- One Piece
- Metal Inserts
- Metal Side wall for a **better grip**
- Weight : 395gr (half pair)

BENEFITS

- Regular flexibility
- Lightweight
- Lifter for better angle
- Better grip

R21 PRO

The R21 Pro is the junior version of the R22, developed for young Champions.

- Boot soles : 241-317 mm
- Compatible bindings :
SPX 10 GW, NX 10 GW, NX 7 GW
- Two Pieces
- Composite inserts
- Weight : 190gr (half pair)

BENEFITS

- Regular flexibility
- Lightweight
- Lifter for better angle

Hero

For the love of race.

A new design and shape for the WORLD CUP Z SERIES and HERO WORLD CUP ranges. The HERO World Cup boot harnesses all the experience of top-level competition.

+ **PROGRESSIVE FLEX, REAR SUPPORT, REBOND AND LATERAL POWER TRANSFER**
Dual Core Race

+ **SHELL ADAPTATION FOR BETTER REACTIVITY**
Canting Race

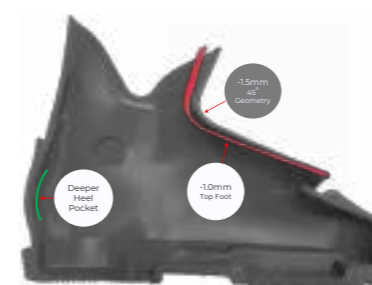

+ **PRECISION, POWER TRANSFER & FOOT INTERACTION**
Geometric Shape

+ **CONTROL OF THE TORSIONAL RIGIDITY, REAR AREA REINFORCED TO INCREASE REAR SUPPORT AND ENHANCE THE REBOUND**
Shell & Cuff Structure

Technologies

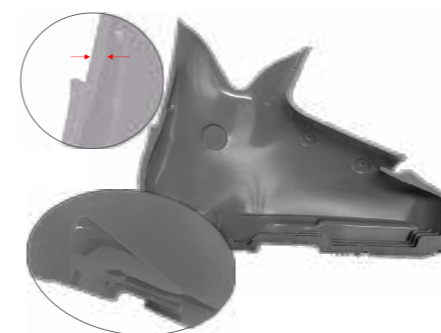

GEOMETRIC SHAPE

97 mm last:
- The internal last is closer to the foot at the instep. The angle is near 45° by moving back 1.5 mm, and lowering by 1 mm on the top of the foot
- The heel pocket is deeper to ensure better support
- The sole length is reduced by 3 mm to 303 mm (for size 26.5).
This improves precision, power transfer and foot interaction.

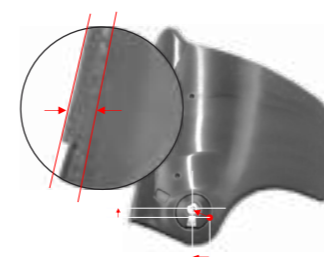

SHELL STRUCTURE

The walls of the shell are thicker to bring them closer to those of the Z Series. The lower part of the shell has been strengthened, and the new design delivers greater torsional rigidity.

CUFF STRUCTURE

The top of the cuff has been redesigned with thicker walls. The axis of rotation is the same as the Z Series. The rear area has been reinforced to increase rear support and enhance the rebound.

POWER FLEX INSERT

This insert creates a strong link between the shell and cuff in this hinge area for improved power transfer. Two options are available for adjusting the flex according to the skier's morphology and proficiency level, or the temperature and snow conditions.
- Carbon insert (pre-mounted): extremely hard
- 53 SHD PU insert (in the box): soft.

DUAL CORE RACE

The entire HERO WORLD CUP and HERO range features the DUAL CORE technology. The process involves three injection points on the shell and two on the cuff. This technology can be used to accurately finetune the progressive flex, rear support and rebound. It also allows for highly effective lateral power transfer.

CANTING RACE

The canting is the same as for the Z series.
- External canting (pre-mounted): 0.5°
- External canting (in the box): 1°
- Fixed internal canting.

LIFTER VIBRAM

OPTIONAL - for making the HERO boots more comfortable to walk in - 3 mm Vibram

Hero

For the love of race.

This helmet is incredibly light—I completely forget I'm wearing it during a race. It's very comfortable, with no pressure points at all. What I appreciate the most is being able to hear everything around me perfectly. I stay fully connected to my environment, without compromising on protection.

ROSSIGNOL RACE DEPARTMENT RECOMMENDATIONS (SKIS, BINDINGS, SKIBOOT)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

ADDITIONAL NOTES / REMARQUES SUPPLEMENTAIRES

U10 2 OPTIONS FOR ATHLETES LOOKING FOR 1 SKI or 2 SKIS (GS & SL)
 * Size 185cm could be use for Adultes race, non FIS ! But also for U16 FIS Race
 * La taille 185cm peut être utilisé pour des courses Adultes non FIS mais aussi par des U16 en FIS.

**Second Year U16 Boys should consider use of 188 or 193, 30m GS skis based on coaches discretion
 **Les coureurs en deuxième année U16 devraient considérer les tailles 188 ou 193 (ski de GS avec rayon de 30m) à la discrétion de leur entraîneur
